What is DSCI?

DSCI

DSCI is a state agency located in the Iowa Department of Human Rights. Deaf Services was established in 1975 and was reorganized to become a commission in 1986. A seven- (7) member commission is appointed by the Governor to oversee activities of the program and to establish policies.

Relay Iowa

What is relay service?

Telecommunications relay service provides full telephone accessibility to people who are deaf, hard-of-hearing or speech disabled. Specially trained Communication Assistants (CAs) process relay calls and stay on the line to relay conversations electronically, over a Text Telephone (TTY) or verbally to hearing parties. This service, known as Relay Iowa, is available 24 hours a day, 365 days a year, with no restrictions on the number of calls placed or on their length. This valuable communications tool gives all individuals who are deaf, hard of hearing or speech disabled the opportunity to make personal and business calls just like any other telephone user. Both TTY and voice users may initiate calls through Relay Iowa.

Calling Protocol

Please have the telephone number that you wish to call ready in advance. If you would like to use a CA of the same gender, make that request when the operator answers your call. Then give the phone number you are calling. Voice users should speak clearly and at a moderate speed. Direct your conversation to the party you are calling as if the CA were absent. Correct: Hello, Jim. The meeting is at two this afternoon. Can you come? (go ahead.) Incorrect: Hello, Communication Assistant. Please tell Jim the meeting is at two this afternoon. Can he come? Go ahead. The CA is required to relay everything that you type or speak, and will also relay all background noises. For example, a fire alarm ringing in the background will be relayed.

Billing Preference

There is no charge for using Relay Iowa within your local calling area. Long distance call rates are determined by the carrier of choice. Tell the CA your preferred long distance carrier if you do not wish to use Sprint. Relay Iowa gives you a number of billing options when you place intrastate, interstate, or international calls. Please notify the CA of your preferred billing option (Direct, Collect, Third Party, calling card, or Prepaid phone card.)

For TTY Users

A person who is deaf, hard-of-hearing, deaf-blind, or speech-disabled uses a TTY to type his/her conversation to a Communication Assistant (CA), who then reads the typed conversation to a hearing person. The CA relays the hearing person's spoken words by typing them back to the TTY user.

1. Dial 711 or 1-800-735-2942
2. Relay Iowa will answer with the CA's individual ID number, "F" or "M" (for CA gender), and "NUMBER CALLING PLS GA." ("GA denotes "go ahead.")
3. Type in the area code and telephone number you wish to call and then type "GA."
4. The CA will dial the number and relay the conversation to and from your TTY. Type in "GA" at the end of each message.

For Voice Users

Standard telephone users can easily initiate calls to TTY users. The CA types the hearing person's spoken words to the TTY user and reads back the typed replies.

1. Dial 711 or 1-800-735-2943
2. You will hear, "Relay Iowa CA (ID number.) May I please have the number you are calling?"
3. Give the CA the area code and telephone number you wish to call and any further instructions.
4. The CA will process your call, relaying exactly what the TTY user is typing. The CA will relay what you say back to the TTY user. (Be sure to talk directly to the person you've called, avoid saying "tell him" or "tell her," and say "Go Ahead" at the end of your response.)

For Voice Carryover Users

Voice Carryover (VCO) allows deaf and hard-of-hearing users to speak directly to a hearing person. When the hearing person speaks to you, a Communication Assistant will serve as your "ears" and type everything said to you on a TTY or text display.

1. Dial 1-800-735-2942
2. Relay Iowa will answer with the CA's individual ID number, "F" or "M" (for CA gender) and "VOICE (OR TYPE) NOW GA."
3. Voice or type the area code and telephone number of the party you want to call.
4. The CA will instruct you when to start speaking. You speak directly to the hearing person. The CA will not repeat what you say, but only type to you what the hearing person says. You both need to say "Go Ahead" at the end of your response.

Emergency

In case of emergency, TTY users should call the TTY-equipped 9-1-1 center or emergency services center in their community. All customers should verify the emergency phone numbers for TTY calls in their area. Calls placed directly and immediately to the local TTY emergency number can save valuable time in urgent situations.

Confidentiality

Relay Iowa is strictly confidential. All calls will be kept private, and no records of any conversations will be maintained. CAs will not share information regarding the contents of any relay call.
